VINCENT ANGELO S. JAVIER

Pila, Laguna | angelojavierjj@gmail.com | vjavier-portfolio.vercel.app | 09565205253

SUMMARY

Full-Stack Developer experienced in building responsive web applications, integrating third party APIs, and developing database driven systems that improve user experience and business operations. Proficient in modern web development technologies and software engineering principles, with a proven ability to create scalable, reliable, and user-centered solutions. Passionate about continuous learning, problem-solving, and delivering high-quality software.

PROFESSIONAL EXPERIENCE

Student Intern, National Irrigation Administration - IV A **Feb 2026 - May 2026**

- Managed and maintained property records, ensuring accurate and up to date asset documentation.
- Developed automation solutions to reduce manual tasks and improve workflow efficiency.
- Supported process improvement initiatives through collaboration with multiple departments.

Web Developer, Freelance **Nov 2025 - Feb 2026**

- Developed responsive landing pages to improve clients' online presence and business goals.
- Collaborated with clients to translate requirements into custom web solutions using modern web technologies.
- Optimized website performance, mobile responsiveness, and UI/UX design to improve user engagement and overall experience.

PROJECTS

HRSync Human Resource Information System **Oct 2025 - Dec 2025**

Technologies: HTML, CSS, JavaScript, Python Flask, MYSQL, Gemini API, Bootstrap

- Built a full-stack HRIS platform with JWT authentication , role-based access control, and third-party Gemini API integration for automated report generation.
- Designed and optimized MySQL database schemas for employee records, performance data, and hiring pipelines, ensuring efficient data retrieval.
- Reduced manual HR processing time by 50% through automated performance evaluations, applicant screening, and report generation

SheWear Ecommerce Website **Mar 2025 - May 2025**

Technologies: HTML, CSS, JavaScript, Python Flask, Flutter, MYSQL, Bootstrap

- Developed an online shopping platform for women's apparel with a user-friendly purchasing experience.
- Built a responsive e-commerce website and mobile application with product management, shopping cart functionality, and database-driven operations.
- Enhanced the shopping experience through intuitive design, seamless navigation, and cross-platform accessibility across web and mobile devices.

Agriculture Management System **Nov 2022 - Dec 2022**

Technologies: C#, WinForms, .NET, MySQL, Guna UI

- Built a Windows-based system for managing farmers, crop records, farm tools, and transactions to support local agricultural operations.
- Designed relational database with complex relationships and optimized SQL queries for reporting and data analysis.
- Created admin dashboards for tracking of crops, inventory, and transactions with data visualization.

SKILLS

- **Languages:** C#, JavaScript, TypeScript, Python, SQL, Java, PHP
- **Frameworks:** .NET, WinForms, React, Next.js, Flutter, Flask, Django, CodeIgniter
- **Front-End:** React, Bootstrap, Tailwind CSS, HTML5, CSS3
- **Back-End:** RESTful APIs, Web Services, Flask, Django, API Integration
- **Databases:** MySQL, PostgreSQL, SQL Server, SQLite
- **Tools:** Git, GitHub, VS Code, Visual Studio, Postman, Figma, Vercel
- **Methodologies:** OOP, SDLC, Agile, Scrum, Code Reviews

EDUCATION

Bachelor of Science in Information Technology **Aug 2022 - July 2026**

Laguna State Polytechnic University - Santa Cruz Campus

CERTIFICATIONS

- IT Specialist - Software Development | Certiport
- Google AI Professional Certificate
- IBM Artificial Intelligence Fundamentals
- CISCO Linux Essentials Certification
- CISCO Introduction to Cybersecurity
- CISCO Operating Systems Basics
